

NEWELL EXTERIOR

KDC VIRTUAL COLOR
CONSULTATION

HAPPY PAINTING!
YOUR CUSTOMIZED
COLOR REPORT
IS READY!

Good day Colleen. Thank you for choosing KDC Virtual Color Consulting for your exterior.

I hope you find the following color report helpful. Please note the paint brand name (Benjamin Moore) and the corresponding color name and number on the swatches for easy reference.

However, any paint manufacturer can make these colors in their own products.

If you have any questions please do not hesitate to send me an email.

Also, when you are finished with your space I would love feedback on the process so I can continue improving it for future clients.

COLOR SCHEME #1

FRONT DOOR
BENJAMIN MOORE
SPANISH RED CC-92

EXTERIOR
BENJAMIN MOORE
PROVIDENCE BLUE 1636

GARAGE, GUTTERS, DOWNSPOUT
BENJAMIN MOORE
WATER'S EDGE

EXTERIOR OPTION #1

For the option, I wanted to give you a bit of color. For the main walls I chose the darker Benjamin Moore Providence Blue, a moody slate blue with plenty of grey for a grown up feel. On the trim, downspouts, and garage doors I chose a lighter version of the same shade, Benjamin Moore Water's Edge. To add a pop, for the front door I chose a deep red, Benjamin Moore Spanish Red.

TIP: To add texture I would install a stone facade on the concrete lower portion. Look for a mixture of cool tones to compliment the new black roof and warm tones to pick up the existing beige window frames.

COLOR SCHEME #2

FRONT DOOR
BENJAMIN MOORE
AZTEC BRICK 2175-10

EXTERIOR
BENJAMIN MOORE
AMHERST GRAY HC-167

GARAGE, GUTTERS, DOWNSPOUT
BENJAMIN MOORE
REVERE PEWTER HC-172

EXTERIOR OPTION #2

For the second scheme I chose a warmer combination of colors. For the main walls I chose a warm toned deep gray - Benjamin Moore Amherst Gray. To compliment, for the garage door, downspouts, gutters and trim, I chose Benjamin Moore Revere Pewter - a greige that would work well with the existing beige window trim.

For a pop of color on the front door, Benjamin Moore Aztec Brick has a lovely orange clay tone which will pair well with the rest of the shades.

Again, I would add texture with a stone facade but use a combination of warmer tones.

INSPIRATION

To add curb appeal and architectural detail I would suggest pouring a pad to the right of the front door, adding a simple wooden railing and perhaps a chair or planter.

SUGGESTIONS

EXTERIOR LIGHTING

I would suggest adding some exterior lighting, especially on both sides of the walkway. There are some beautiful solar options these days that are easy to install, durable and require almost no maintenance.

SAMPLES

The best way to try a new color is to either paint a sample of the house or paint a large sample board. However, make sure to paint a large swatch so you can get a better sense of the color. Also, do not paint the samples too close to another another. They will start to blend in and you will have a difficult time telling them apart. Paint samples at least 4 feet away from one another.

TERMS & CONDITIONS:

Because lighting can have a huge effect on how we see color I always recommend testing paint colors in your space before making a final decision.

I am not financially responsible for the material and labor of the finishes from my consultations. From the time of purchase, the customer will have 14 days to complete and return the required questionnaire along with at least three photos of your space. Photos need to be taken in daylight between the hours of 9am and 3pm. If the necessary information is not provided in the time frame requested a 50% refund will be provided within 30 days of original purchase.

Each Virtual Color Consultation includes two color scheme choices but if you are not satisfied with either I will allow for ONE revision provided based on your feedback within five business day. Once my Virtual Color Consultation is complete no refunds will be given.
